

BarnSafe™

Fire Protective Coatings

Barn Fires are a terrifying and often devastating occurrence that strike without warning. Too often the damage caused is irreversible. BarnSafe™ is a Fire Protective coating that could save your life, livestock, and your investment!

BarnSafe™ is a coating that when applied to all wooden surfaces creates a protective barrier against the ignition factors that cause fires.

With its S.M.A.R.T. Coat technology BarnSafe™ provides additional protection by preserving those wooden surfaces and more!

BarnSafe™ is available in a solid coat application and a semi-transparent wood guard stain. Both are ideal for exterior and interior applications.

Why Paint when you can Coat?

- Decorative and Affordable
- Durable, crack and peel resistant
- Easy Application
- Environmentally and User Safe

Protects From:

♦ Fire ♦ Water ♦ Mold ♦ Rot ♦ Termites ♦ Bacteria

Apply To:
